Assignment 0124 Feedback

Because this assignment serves as a building block to the effective use of a command-based operating system shell, outcome *1a* tops out at |. Later, more advanced assignments will allow this outcome to expand to the maximum +.

Marc Mouallem

1a — I know that you did a DIY *git* repository, so that counts for that. However, you are missing the command and names-and-symbols guides. I know that you can rattle this off very quickly, so please do. (/)

4d — Not seen yet. (O)

4e — Not seen yet. (O)

4f — Not submitted on time, except for the DIY repository which you already did last year. (/)
